PROFESSIONAL SUMMARY

Aspiring Software Engineer with a solid foundation in Core Java, Python, C/C++, Data Structures & Algorithms, DBMS, and Operating Systems. Skilled in building end-to-end applications using JDBC, Servlets, JSP, HTML5, CSS3, JavaScript, and MySQL. Completed industry training in Java Full Stack Development and practical internships in Cybersecurity and Cloud Computing. Demonstrated leadership as ISTE and TPC Cell Coordinator. Quick learner with strong analytical and problem-solving capabilities, eager to contribute to impactful engineering teams.

TECHNICAL SKILLS

Languages Java, Python, C, C++, C#	Core Java OOP, Collections, Exception Handling, Multithreading	Web HTML, CSS, JavaScript
Server-side Servlets, JSP, JDBC, MVC Architecture	Database MySQL, SQL — DDL, DML, Joins, Stored Procedures	Frameworks Spring Boot (fundamentals), REST APIs
Tools / VCS Git, GitHub, Eclipse, IntelliJ IDEA, VS Code	Design Figma, Canva, Miro	Core CS DSA, DBMS, OS, Computer Networks

PROJECTS

Pharmacy Management System · Java · JDBC · MySQL · Swing

- Designed and developed a full-stack desktop application for managing pharmacy inventory, billing, and supplier records using Java Swing and JDBC with a normalised MySQL relational database.
- Implemented parameterised SQL queries across 6 database tables, enforcing data integrity and eliminating redundancy through proper schema normalisation.

Student Registration System · Java · JDBC · MySQL

- Built a multi-user student enrollment application supporting data entry, live-search, and report generation, streamlining 5 key administrative workflows via a Java front-end backed by MySQL.

Cardiology · Core Java · C++ · OOP · File I/O

Developed a 21 Card Game (Blackjack) application featuring randomized card distribution, score calculation, game-state management, and automated winner determination, providing an engaging and interactive gaming experience.

Min/Max Optimisation — Algorithmic Problem · C++ · DSA

- Solved a classic divide-and-conquer problem to determine minimum and maximum values with optimal time complexity, demonstrating strong algorithmic thinking and C++ proficiency.

Seminar — Cyberspace, Cybercrime & Digital Safety · Research · Presentation

- Researched real-world cybercrime vectors and countermeasures; delivered a structured 20-minute seminar to 100+ students, receiving faculty recognition for technical depth and clarity.

INTERNSHIPS & TRAINING

Java Full Stack Development Training · Industry Training Program

- Completed an intensive programme covering Core Java, JDBC, Servlets, JSP, HTML5, CSS3, JavaScript, MVC architecture, and MySQL; built and deployed two end-to-end web applications.

Google Cloud Cybersecurity Internship · Virtual Internship

- Practised cloud security principles — threat detection, IAM, network security, and incident response — in Google Cloud lab environments; earned the Google Cloud Cybersecurity Certificate.

Data Structures & Algorithms using C++ · Virtual Internship

- Implemented 15+ data structures and solved 30+ problems covering sorting, searching, and graph traversal algorithms; strengthened time-complexity reasoning and code optimisation skills.

Cloud Computing Internship · Virtual Internship

- Studied IaaS, PaaS, and SaaS deployment models, virtualisation concepts, and cloud architecture fundamentals through guided labs and structured assessments.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

ISTE Cell Coordinator · *Indian Society for Technical Education*

- Planned and executed 10+ technical workshops, coding competitions, and guest lecture series, engaging 200+ students and fostering industry-relevant learning opportunities.

TPC Cell Coordinator · *Training & Placement Cell*

- Coordinated 5+ campus placement drives, mock interview cycles, and aptitude-training workshops; directly supported peers in improving placement preparedness and interview confidence.
- Participated in and represented the institution at college-level, university-level, and national-level technical competitions.

CERTIFICATIONS

Java Full Stack Developer Certificate — <i>Industry Training</i>	Java Foundation — <i>Infosys Springboard</i>
ChatGPT for Cybersecurity — <i>Online Certification</i>	DSA using Java — <i>Infosys Springboard</i>
TCS iON: Effective Communication — <i>TCS iON Digital Learning</i>	AMCAT / SHL Aptitude Certificate — <i>Aspiring Minds</i>
TCS iON: Email Etiquette — <i>TCS iON Digital Learning</i>	Google Cloud Cybersecurity — <i>Google Cloud</i>

EDUCATION

B.Tech in Information Technology · *College of Information Technology, Shivaji University*

Key Subjects: Core Java, DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms, Software Engineering

HSC (Class XII) · *Hanuman Vidyamandir and Junior College, Marawade*75.30%

SSC (Class X) · *Hanuman Vidyamandir and Junior College, Marawade*70.00%
